Sewing Thread rPET

100 % recycled polyester

EN

**MICRO CORE
TECHNOLOGY®**

Around 1,000 m of Sew-all Thread rPET
or 300 m Top Stitch rPET sewing thread are
produced from just one PET beverage bottle!

Be responsible for the environment –
conserve natural resources! The Sew-all
Thread rPET 100 m, Top Stitch rPET 30 m
and Miniking rPET 1.000 m are the sewing
threads from Gütermann creativ made of
100 % recycled polyester.

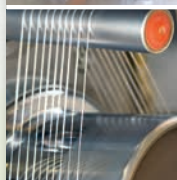

The raw material for these environmen-
tally-friendly threads is provided by recycled
beverage bottles made of 100 % PET
(polyethylenterephthalate). The collected
PET bottles are washed in different stages,
shredded into so-called flakes and melted.

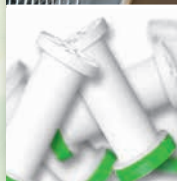

The microfilaments that are obtained from
the granulate then form the basis for
production of the sewing threads.

The special advantages of the sewing
threads made from rPET lie in the recycled
raw material. It conserves the environment
and saves natural resources.

Thanks to the Micro Core Technology®
environmentally-friendly sewing threads
with excellent sewing properties can be
produced with the existing production
facilities and processes.

The spools for the sewing threads made
from rPET are made of 100 % polystyrene
(PS) or 100 % polypropylene (PP) and can
be disposed of with the separated household
waste, and in this way are supplied to the
recycling loop.

Recycled sewing thread

Because we love nature

Beautiful sewing in harmony with nature: our quality rPET sewing threads make it possible, because they are made from 100 % recycled PET bottles.

As early as 2010, A&E Gütermann was the first sewing thread manufacturer to develop and present a recycled sewing thread for end users. With our rPET sewing threads we have come a big step closer to the desired harmony of efficiency and ecology. As a global player we have created sustainable value, take responsibility for our environment and conserve natural resources.

No matter whether for clothing or accessories – sustainable sewing is possible in outstanding quality. The rPET sewing threads are also produced with Micro Core Technology®, the unique microfilament-based spinning process.

Sewing Thread

Sew-all Thread rPET

Thickness No. 100

Material 100 % recycled polyester

Care     (P)

Needle Universal Needle

Needle size
NM 70 – 90

Art. 723860

100 m
166 shades

Product

- Micro Core Technology®
- Thickness No. 100
- Sew-all Thread made from 100 % recycled polyester
- Sewing with the sewing machine and by hand

Application

- Closing and backstitch seams
- Fine ornamental stitches and decorative seams
- Lingerie buttonholes

Fabric recommendation

- Light and heavy to medium-weight fabrics and material
- Light and heavy to medium-weight clothing fabrics
- Light and heavy to medium-weight decorative fabrics
- Knitwear

Top Stitch rPET

Thickness No. 30

Material 100 % recycled polyester

Care     (P)

Needle Universal Needle

Needle size
NM 100 – 120

Art. 723665

30 m
20 shades*

Product

- Micro Core Technology®
- Thickness No. 30
- Top Stitch made from 100 % recycled polyester
- Sewing with the sewing machine and by hand

Application

- Strong closing and backstitch seams
- Ornamental stitches and decorative seams
- Manually stitched eye buttonholes

Fabric recommendation

- Heavy to medium-weight fabrics and material
- Heavy to medium-weight clothing fabrics
- Heavy to medium-weight decorative fabrics
- Leather and synthetic leather

Sewing Thread

Miniking rPET

Thickness No. 120

Material 100 % recycled polyester

Care     (P)

Needle Universal /
Overlock Needle

Needle size
NM 60 – 80

Art. 715265

1.000 m
8 shades▲

Product

- Universal sewing thread for all household, overlock and cover-stitch sewing machines
- Micro Core Technology®
- Thickness No. 120
- Universal sewing thread made from 100 % recycled polyester

Application

- Overlock seams
- Safety seams
- Coverstitch seams
- Flatlock seams
- Closing and backstitch seams
- Fine ornamental stitches and decorative seams

Fabric recommendation

- Light and heavy to medium-weight fabrics
- Light and heavy to medium-weight clothing fabrics
- Light and heavy to medium-weight decorative fabrics
